

Sales Tax Compliance Is a Full-Time Job. *We Handle It for You.*

We help businesses manage sales and use tax obligations across multiple jurisdictions, staying ahead of changing rules so you stay compliant and avoid costly penalties.

- ✓ 100+ Years of Compliance Experience
- ✓ Dedicated Local Team
- ✓ Nationwide Filing Coverage

Compliance Is More Complex Than Most Teams Realize.

Sales and use tax rules vary by state, change constantly, and leave little room for error. Nexus thresholds shift, filings may get overlooked, and misclassified transactions can trigger an audit. Most accounting teams don't have the bandwidth or specialization to stay ahead of it all, and the exposure quietly compounds.

Get Expert Oversight. End to End.

We become an extension of your team, managing your sales and use tax compliance obligations. Every engagement is led by a senior professional from start to finish, ensuring nothing falls through the cracks and your positions remain accurate.

Let's Get Your Compliance Under Control.

What We Do

Once you share your filing obligations and account details, we take it from there and get your compliance running accurately and on time.

Phase 1: Getting Started

You share your current filing obligations, nexus footprint, and any open compliance questions. **After that, we get to work.**

Phase 2: Compliance Management

Return Preparation and Filing across all required jurisdictions, accurately and on time

Nexus Reviews to ensure you're registered where you should be and not exposed where you shouldn't be

Use Tax Reviews to identify and correct accrual errors before they become audit findings

Audit Defense to represent your interests directly with auditors if you come under review

Phase 3: Continuous Monitoring

We monitor regulatory changes, flag anything that affects your business, and keep your compliance current as you grow. If questions arise, we're your first call.
